St. George, Utah 84790

Subject: Division Directive to Reclaim, Standard Gypsum Products, Inc. Bloomington Hills Mine,
S/053/0007, Washington County, Utah

Dear Gubler:

As per the requirements of rule R647-3-113.5, the Division of Oil Gas and Mining requires reclamation of the Bloomington Hills Mine. You are directed to have all regrading and seeding work completed by October 21, 2013. Failure to complete reclamation as required may result in enforcement action with accompanying civil penalties (fines).

The Division is taking this action based on records indicating the mine has been inactive since at least 2001. Reclamation surety has not been provided for this site. The Division has also been informed by the School and Institutional Trust Land Administration that your lease with them has expired and has not been renewed.

If you have questions or concerns about this letter, please contact Lynn Kunzler at 801-538-5310, or me at 801-538-5261. Thank you for your cooperation.

Sincerely,

Paul B. Baker
Minerals Program Manager
